Thanks John!

I am available Thursday at 11 Mountain time (1 pm Eastern). I look forward to hearing yoru thoughts on the outline, as well as the cultural materials.

Thanks again,

Jenny

Hi Jenny,

I'm at some meetings in Portland this week or would have replied earlier.

I will be glad to coordinate the economics synopsis and have worked this out with Gunnar and his team (forwarded you this communication separately).

I have been giving some thought to the subsistence/TEK questions and will have something on this next week.

We set up a tentative call on the economics synopsis for the economics team next thurs at 11:00 mountain daylight. Does this work for you?

Thanks.

john

Hi All-

I just had the opportunity catch up on my emails and saw that Phil had forwarded me Gunnar's email from earlier this morning. I agree that it would be very helpful if we could start fleshing out and economics outline. I'm not sure there has been additional email traffic among all of you, but if you are still in need of some one to compile and organize input, I would be happy to do so. Please just let me know!

On a separate note, I'd like to follow-up and see if anyone has had the opportunity to think about if there are any questions we'd like to propose to Allan and Catherine for incorporation into the cultural survey (see email below).

Can I ask everyone to send me their input (on the cultural survey and/or for the economics outline) by the end of the day on Wednesday of next week (4/20)? This will allow me to compile everyone's thoughts on Thursday and send it back out to the group for reaction. I'd suggest a conference call early the next week (4/25) to discuss by phone.

Thanks again!

Jenny

Subject: Fw: Bristol Bay TEK questions and narrative

Hi All-

Here are the first cut at the cultural study questions from Catherine and Allen. As you might expect, these documents are drafts and still undergoing changes and improvements.

Catherine recommends reading the narrative first to provide some context to the questions. If you all could review and do a little thinking as to questions or concepts that may be helpful from an economics perspective, that would be fantastic. If you send me your thoughts, I'll be happy to compile and pass on to

Catherine and Allen.

Thanks so much!

Jenny

Hi Dan et al:

Ex. 5 - Deliberative

Ex. 5 - Deliberative

I would prefer that someone other than me be in charge of coordinating this process--arranging a phone meeting and pulling together the final full ECONOMICS portion. Do we have a volunteer or obvious candidate?

Hey All,

I'm attaching a draft synopsis of the fisheries end of the Bristol Bay watershed assessment. This document summarizes the pertinent information and gives the primary supporting references for most of the sections that we identified in our preliminary outline.
